Rob Kerr

Consultant, Mobile Software Developer

https://robkerr.com

SUMMARY

- Proven track record leading and participating hands-on in the delivery of complex, scalable software projects.
- Experience consulting with Fortune 1000 companies and startups.
- Instrumental in the growth and success of startup product and service businesses.
- Self-starter, team player, efficient communicator.

EXPERIENCE

Software Development Consultant **Freelance** **Apr 2015 – Present**
Consulting with startup and enterprise clients to develop innovative mobile and cloud applications that increase customer loyalty and provide delightful end-user experiences.

CTO **BlueGranite** **Sep 2006 – Apr 2015**
Served in senior client-facing consulting and technical leadership roles reporting to the CEO. Instrumental in building a successful consulting practice for a Microsoft Gold Partner.

Software Engineer **Armstrong International** **May 2004 – Aug 2006**
Developed sales automation tools, CRM applications and engineering products. This resulted in patented technology products that enhanced the value proposition of Armstrong's core offerings in a highly competitive global market.

Data Center Operations Supervisor **ADP** **May 2003 – May 2004**
Led a multi-disciplinary team supporting 2,000 Intel and Sun servers in a large SAAS software data center. Instrumental in reorganizing the NOC staff for 2nd and 3rd shifts during a period of significant data center footprint expansion.
